APPOINTMENT OF A SERVICE PROVIDER TO ESTABLISH A PROJECT MANAGEMENT UNIT TO PROVIDE SUPPORT TO THE COMMUNITY WORK PROGRAMME FOR 36 MONTHS
1. INTRODUCTION

1.1 In 2011, government developed an action plan in response to the scale of unemployment and the need for more urgent action. A target to scale up to one million participants for the Community Work Programme (CWP) by the end of 2018/19 was set.

1.2 However, any expansion at the proposed scale brings new risks and institutional demands as well as substantially higher resource requirements. Since 2013, progress has been made with respect to the institutional stabilisation of both the Department of Cooperative Governance (DCoG) and the CWP. Consequently, the Department has now identified a need to strengthen the CWP to enable the programme to scale up successfully.

1.3 Additional impetus in this regard is derived from the 2014-2019 Medium-Term Strategic Framework (MTEF), which has committed government to expanding the CWP programme to 234 municipalities, with a minimum of 1,000 participants enrolled per site with an overall target of 1 million participants by 2019.

1.4 While the urgency of scaling up rapidly is common cause, the target of 1 million was set in a context in which a five-year period was anticipated as the period. However, the first two years of this MTEF period have already passed, with the CWP participation rate remaining constant at around 200,000. Part of the institutional support process will need to assess how fast CWP can scale up in the remaining period without placing institutional stability at risk.

1.5 The CWP is also faced with challenges due to the nature of its implementation model, which entails working with non-profit organisations (NPOs) contracted as Implementing Agents (IAs). Furthermore, CWP challenges were highlighted by audit findings conducted by the Auditor General, Internal Audit and Forensic Audits.

2. PROBLEM STATEMENT

2.1 The 2014-2019 Medium Term Strategic Framework commits the CWP to scale up to 1 million work opportunities by 2019. While the programme has had a significant impact over the years, its ability to scale up has been limited by a number of factors consisting among others, inadequate budget allocations, inadequate programme and financial management capacity as well as less than effective systems that have led to under-expenditure in the past, thus hindering the acquisition of additional funding from National Treasury (NT). There is, therefore, a need to do more with lesser resources.

2.2 The following key issues relating to the implementation model, have been identified:
   a) Oversight and Monitoring
   b) Financial Management
   c) Procurement and Contract Management
   d) Compliance Management
   e) HR Management
   f) IT Management
   g) Financial Health
2.3 These challenges led to a decision to review the model in consultation with National Treasury. In order to mitigate against those challenges, as well as ensuring that the objectives of the programme are met in an effective and efficient way, National Treasury advised on introduction of a transfer payment mechanism in line with Treasury regulations and PFMA (Act 1 of 1999) Section 38(1), (j) and (k). In this instance, the non-wage component will be outsourced to Non-Profit Organisations (NPOs) through regular budget transfers. This, therefore, requires strengthened management capacity inclusive of tight internal controls, monitoring processes and systems. A Project Management Unit (PMU) is thus required.

2.4 After the assessment of CWP by the Government Technical Advisory Centre (GTAC) of the National Treasury few years ago, a proposal of a more viable and sustainable option of appointing an external team to support CWP Management, was made. This entailed building a well-capacitated PMU for at least a year to stabilize the CWP and to prepare new institutional arrangements. This proposal needs to be implemented in order to meet the current implementation and performance challenges of the CWP.

3. SCOPE OF THE PROJECT

3.1 The purpose of the project is to establish a Project Management Unit to support key CWP functions to stabilise the programme, improve the internal control environment and to accelerate its expansion on a well-founded strategy, with appropriate capacity and systems. \]

Where:

\[
\begin{align*}
P_s & = \text{Points scored for price of bid under consideration} \\
P_t & = \text{Price of bid under consideration} \\
P_{\text{min}} & = \text{Price of lowest acceptable bid}

CERTIFICATION

I, THE UNDERSIGNED (FULL NAME) ………………………………………………………………………………………………………
CERTIFY THAT THE INFORMATION FURNISHED ON THIS DECLARATION FORM IS TRUE AND CORRECT.

I ACCEPT THAT, IN ADDITION TO CANCELLATION OF A CONTRACT, ACTION MAY BE TAKEN AGAINST ME SHOULD THIS DECLARATION PROVE TO BE FALSE.

........................................................................ Signature ........................................................................ Date

........................................................................ Position ........................................................................ Name of Bidder
This Standard Bidding Document (SBD) must form part of all bids¹ invited.

Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.

b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
