TERMS OF REFERENCE

**THE REVIEW AND ENHANCEMENT OF A SIMPLIFIED REVENUE PLAN MODEL FOR
CUSTOMISATION AND IMPLEMENTATION IN SELECTED MUNICIPALITIES**

PROJECT TITLE:

THE REVIEW AND ENHANCEMENT OF A SIMPLIFIED REVENUE PLAN MODEL FOR CUSTOMISATION AND IMPLEMENTATION IN SELECTED MUNICIPALITIES.

1. INTRODUCTION

The purpose of the terms of reference is for the Department of Co-operative Governance (DCoG) to establish a panel of knowledgeable, skilled, and experienced service providers to assist DCoG in the development and implementation of plans to enhance the municipal revenue management and debt collection system. The plans once implemented should result in improved revenue management, reduced municipal consumer debt and enhance the potential of revenue collection in the selected municipalities.

Whilst section 229 of the Constitution of the Republic of South Africa requires municipalities to raise rates and impose surcharges on fees for services provided, section 154 places an obligation on both national and provincial government to support and strengthen the capacity of municipalities to manage their own affairs to perform their functions. Municipalities are required to provide services such as water, electricity, refuse removal and other trading services. In the execution of these functions, credit control and debt management become central to their sustainability.

Escalating municipal debt is a major threat to the financial sustainability of municipalities, particularly those that render limited services. Past experiences have shown that the situation has been compounded by a number of variables; some within the control of the municipalities and others being outside their control. Limitations on accurate and reliable information, interpersonal relationships are but some of the areas that require attention.

It is against this background that DCoG needs to create a panel that will seek to attend to the scope of work as shown below.

2. BACKGROUND

In 2003, the Department of Cooperative Governance and Traditional Affairs in KZN (KZN CoGTA) contracted the services of a service provider in terms of Bid Number ZNT 1830/2012 LG for the development of a replicable simplified revenue plan for municipalities. The objective of the project was to assist the department with the development of a single replicable model for the implementation of simplified revenue plan. The plan once correctly implemented would contribute to reducing municipal consumer debt and protecting and enhancing the municipality revenue collection. **(See Attached Annexure A)**

DCoG intends taking this project forward without duplicating the resources already utilised by KZN Cogta in developing the model. The project will be implemented in identified municipalities where the model will be reviewed, improved on and customised to produce municipal specific revenue plans. Implementation will contribute to improving the selected municipalities' revenue and debt situation.

3. TECHNICAL SPECIFICATION

3.1. OBJECTIVES OF THE PROJECT

The objective of the project is for the Department of Co- Operative Governance (DCoG) to obtain the services of competent service providers, to assist the Department with the review and enhancement of the KZN Cogta developed replicable model on simplified revenue plan and to thereafter roll out and implement the simplified revenue plans at identified municipalities (**See Attached Annexure A**). The simplified revenue plans once implemented should result in improved revenue management; reduced municipal consumer debt and protecting and enhancing the municipalities' revenue collection potential.

4. SCOPE OF WORK:

The successful service providers would be required to complete the project in the phases mentioned below.

PHASE	TIME-FRAME
<p>1: Review the generic Simplified Revenue Plan:</p> <p>Review the model and suggest improvement to the Department. The Department would be looking for a specific comments around enhancing the "Assess Status Quo" and Data Analysis" (Phase 2 and 3 of the replicable model) and Annexure C- The Tariff Setting Model.</p> <p>DCoG will then consider the suggested amendments prior to finalising the generic, replicable, simplified plan.</p>	1 month
<p>2: Implementation Planning and conducting an "As Is" assessment</p> <p>Phase 2 (a) Implementation Planning</p> <p>Once the generic plan has been amended and finalised, the service providers should plan for the project implementation. It is the expectation that the project would start with a kick off meeting between various stakeholders in the order to explain the details of the assignment and to obtain the buy in of all stakeholders.</p>	3 months

PHASE	TIME-FRAME
<p>Stakeholders must include Municipal Mangers, Chief Financial Officers and the Revenue Manager and the DCoG project steering committee.</p> <p>Phase 2 (b) Data Analysis</p> <p>Data should be extracted and analysed as per the replicable model. In effect as per the replicable model format.</p> <p>Phase 2(c): “As is Assessment”</p> <p>Utilising the final replicable model, service providers would be required to conduct an “As-is” assessment of the revenue value chain in a specific municipality.</p> <p>The reports from this phase should be consolidated and presented to the Municipal Manager, Chief Financial Officer, Revenue Manager or MANCO as well as the DCoG project steering committee.</p>	
<p>3: Modeling and Developing an Improvement plan (Municipal specific simplified revenue plan)</p> <p>This phase would be informed by the findings of phase 2. The deliverable for this phase should be the findings from phase 2 mapped against corrective measures as well as a project plan for the implementation of the plan.</p> <p>The findings and corrective measures which are translated into a project plan should be presented in a report format as well as in a presentation format for the key stakeholders in the municipality and the steering committee.</p>	
<p>4: Implementation of the municipal specific simplified revenue plan.</p> <p>This phase will be the actual implementation of the corrective measures identified in the previous phase according to the project plan. The progress that clearly identifies the outputs for each stage in the plan must be reported on a monthly basis to the Municipal Manger, Chief Financial Officer, and Revenue Manager or MANCO as well as the project steering committee.</p>	<p>Maximum 15 months</p>
<p>5: Close –Out</p> <p>On completion of the project, the service provider is required to provide a comprehensive close out report on the project as a deliverable and present this</p>	<p>1 month</p>

PHASE	TIME-FRAME
<p>to the project steering committee. DCoG will then consolidate the municipal specific close out reports into a final report for the project.</p> <p>To achieve economies of the scale and for improved efficiencies, municipalities may be grouped, where possible. The Department reserved the right to allocate resources as it deems fit.</p>	

5. DELIVERABLES (MEASURABLE OUTPUTS)

The Department requires the following as key overall deliverables (in line with the detailed scope of work above)

Deliverable 1: Report on recommended changes and additions to the replicable model.

Deliverable 2: A detailed report on the current state of the systems, processes and procedures within the revenue management and credit control environment outlining: The effectiveness of the current system; the areas that require attention; broad recommendations in terms of optimizing the revenue management and credit control and a case for change.

Deliverable 5: Close- Out report

6. OUTCOMES

- Improved systems and policies for revenue management; and
- Improved revenue collection.

7. PROJECT TIMELINES

The project is anticipated to commence in August 2016 and be completed by the end of June 2018 thereafter DCoG will make the necessary considerations for the implementation of the revenue plans in a different set of municipalities based on the availability of funds in the following financial years.

8. SERVICE PROVIDER COMPETENCY REQUIREMENTS

9. REMUNERATION:

9.1 FEES:

The department will allocate municipalities to the successful bidders who will form the panel. Due to the differentiated nature of the project; the billable fees must only be quoted in hourly rates.

During phase one i.e. the review of the plan; all bidders who will be successful to form part of the panel will be required to allocate 1 person to participate in a review workshop that will be facilitated by the department. The workshop participation and preparation hours will be given and therefore be uniform for all bidders.

The actual number of hours and the number of staff per category will be determined and agreed to with the project team. These will then be contracted with the specific bidder for a specific municipality during phase two of the project after having taken into account the specific circumstances of the respective municipalities.

The rates per hour must be quoted and will be evaluated according to the following three categories only:

- Project Director: R (Rate per hour)
- Team Leader R (Rate per hour)
- Project Manager R (Rate per hour)

The billable fees / rates for this will be assessed in relation to the National Treasury and DPSA guide on hourly fee rate for Consultants. It is expected of the bidders to quote their fees within these prescribed parameters.

SBD 9

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
